

Building Web Applications

Let's do it quickly....

seaside[★]

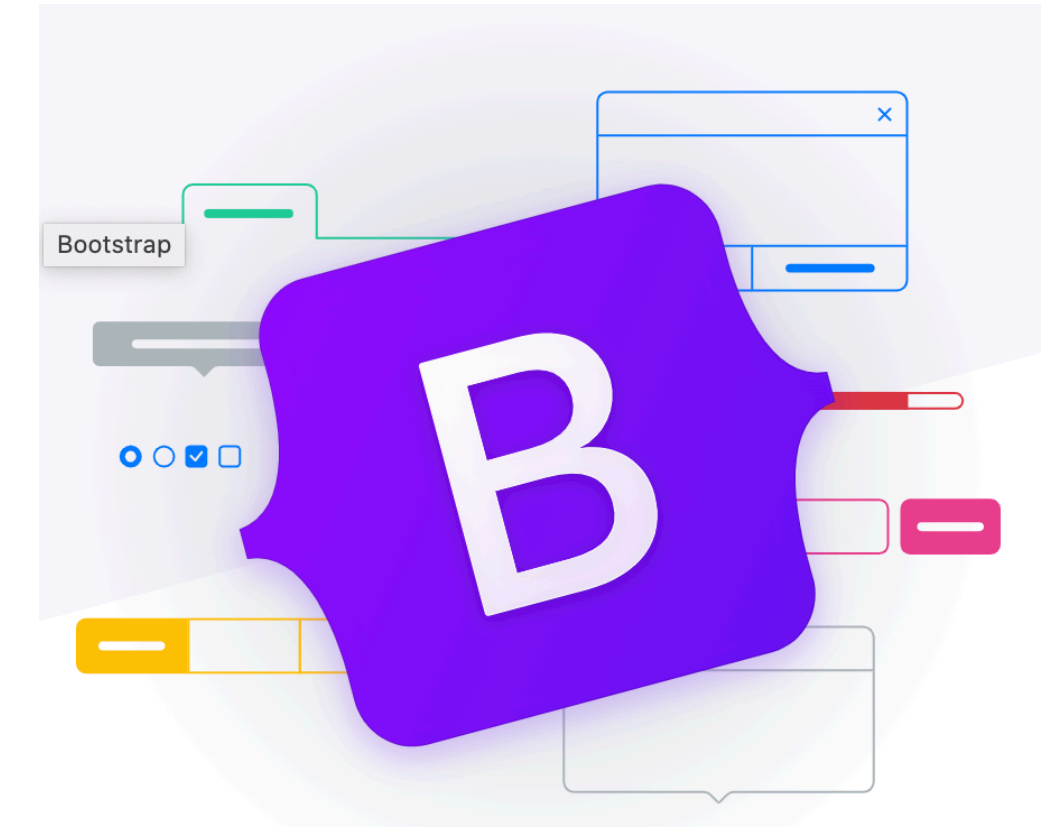

The framework for developing
sophisticated web applications
in Smalltalk

- Stateful Web Applications
- Programmatic XHTML generation
- Component Oriented
- Automatic Session and Callback Handling

<https://www.seaside.st/>

Bootstrap 5 for Seaside

- Clean integration of Bootstrap 5 in Seaside
- Extending Existing canvas
- Can be used as any other Seaside Components

<https://github.com/astares/Seaside-Bootstrap5>

Installation

- In Pharo 9. Just evaluate:

```
Metacello new  
  baseline: 'Bootstrap5';  
  repository: 'github://astares/Seaside-Bootstrap5:master/src';  
  load
```

Hands on...
